

THE ROHO® AirLITE® CUSHION

COMFORT

DURABILITY

POSITIONING

LIGHTWEIGHT

SIMPLICITY

Designed for comfort and peace of mind, the AirLITE combines the benefits of a sealed air support pad and a durable contoured foam to provide postural support and optimal durability. The non-adjustable pre-set air support pad, uses patented ROHO AIR FLOATATION Technology, while a contoured high density foam base positions the body in a comfortable position, creating one of the most effective and easy-to-use cushions on the market today. At only two pounds, it continues the tradition of lightweight products from The ROHO Group.

AirLITE...comfort, durability and positioning in one simple package...
the solution that others can't match.

ROHO® AirLITE® CUSHION

APPLICATIONS

THE AirLITE CUSHION IS APPROPRIATE FOR INDIVIDUALS WHO MAY:

- be at risk for skin/soft tissue breakdown
- have normal sensation
- require increased stability
- require lower extremity alignment
- need a lightweight, non-adjustable seating system

WEIGHT:

Varies by size, approximately 2 lbs/ 1 kg (based on an 18" x 16" size AirLITE Cushion)

WEIGHT LIMIT:

275 lbs. / 125 kg

WARRANTY:

24-month limited

U.S. MEDICARE CODE:

E2605, Positioning Wheelchair Seat Cushion

FEATURES & BENEFITS

EASE OF USE:

With the pre-set AIR FLOATATION component, just put the AirLITE cushion in the wheelchair and enhance alignment, comfort and durability. No adjustment necessary.

COMFORT:

By combining a contoured, anatomical-shaped foam with a pre-set sealed AIR FLOATATION component, the AirLITE enables individuals to sit comfortably for an extended time. AirLITE's technology and design provides the comfort individuals want and the support they need.

POSITIONING:

The contoured shape of the AirLITE cushion provides individuals with support for basic positioning needs. Leg (femur) troughs and an ischial well provide support for lower extremity control and stability.

LIGHTWEIGHT:

Weighing only 2 lbs (1kg), AirLITE is a lightweight cushion that makes a mobility system easier to propel and transport.

FLUID RESISTANT:

The breathable, fluid resistant cover protects the cushion from fluids, odor and is machine washable.

SECURITY:

The non-skid bottom of the AirLITE's cover increases security of the cushion not moving in the wheelchair.

The ROHO® AirLITE® Cushion (AirLITE) is a wheelchair support surface with a nonadjustable, segmented ROHO AIR FLOATATION insert encased within contoured foam. The AirLITE is intended for individuals who weigh 275 lbs (125 kg)* or less and who may require positioning while seated. The AirLITE is intended to be used with the supplied cover.

* Cushion must be properly sized to the individual using the AirLITE.
